## Full Stack JavaScript Developer

### EMPLOYMENT

#### Beach Houses In Paradise

*Full-Stack Developer*

**Palm Beach Gardens, FL**

*09/2017 - present*

- Vacation beach-house rental platform
- Front/back end integration with React/Next.js, Gatsby.js, jQuery, Vue.js, React-Native, Node.js/Express, Docker, Bootstrap, Foundation, GraphQL, PostgreSQL, and MS SQL Server.
- Built front end interface for a static Gatsby.js site complete with a custom CMS and feature-rich react components.
- 3rd party API integration using with Google Maps.
- Utilized cutting-edge React features like Hooks and React-Suspense.
- Integrated state management with React context and Redux.
- Created reusable and scalable React components across multiple platforms.
- Helped to create a server-side rendered administration interface using Next.js
- Boosted code coverage with test-driven development using Jest and Enzyme.
- Utilized continuous integration using pull requests with Bitbucket, Gitlab, and Jenkins.
- Container-based application deployments using Docker and Kubernetes.
- Queried against a GraphQL API to render data with a focus on UX and pixel-perfect UI.
- Agile workflow on teams with as many as 5 developers.
