## Front End JavaScript Developer

### EMPLOYMENT

#### Beach Houses In Paradise

*Front-End Developer*

**Palm Beach Gardens, FL**

*09/2017 - present*

- Front/back end integration with React/Next.js, Gatsby.js, jQuery, Vue.js, React-Native, Node.js/Express, Docker, Bootstrap, Foundation, GraphQL, PostgreSQL, and MS SQL Server.
- Built front end interface for a static Gatsbyjs site complete with a custom CMS.
- Built an interface platform for multi-lingual employees using internationalization.
- Helped to create a server-side rendered administration interface using Next.js.
- Boosted code coverage with test-driven development using Jest and Enzyme.
- Utilized continuous integration using pull requests with Bitbucket, Gitlab, and Jenkins.
- Container-based application deployments using Docker and Kubernetes.
- Queried against a GraphQL API to render data with a focus on UX and pixel-perfect UI.
- Configured apps to work seamlessly with Google analytics.
- Agile workflow on teams with as many as 5 developers.
- Hybrid on-site/remote work.

#### Thinkful

*Mentor*

**New York, NY (Remote)**

*07/2017 - 07/2018*

- Solidified front-end fundamentals by mentoring students through course curriculum with a focus on JavaScript, HTML, and CSS.
- Held students accountable by goal-setting and administering coding challenges.
- Pair programming with students in order for them to learn to work with other developers.
- Took part in in-house web development workshops in order to expand my knowledge base.
- <https://www.thinkful.com/>
